Crypto Cocktail Club Protocol Whitepaper

Version 1.1 — Revision Notes

This version (v1.1) expands upon the original January 2026 whitepaper with additional sections addressing execution strategy, risk disclosure, security posture, governance model, and protocol success metrics. No changes have been made to economic allocations, smart contract logic, or compliance architecture described in Version 1.0.

New Sections Added:

• Section 9: Phased Deployment Strategy
• Section 10: Risks & Design Tradeoffs
• Section 11: Security & Audit Posture
• Section 12: Governance & Control Model
• Section 13: Measuring Protocol Success

Refer to the public whitepaper for full protocol specification.
